Your graduation is your responsibility. Double check all the information entered into this form for any human errors. Generate your degree audit frequently; it is the official record used by the Graduation Office to determine graduation eligibility. Dropping, failing or repeating courses may alter this worksheet. Repeated courses count for credit once and it is always the most recent course that counts, not the course with the highest grade. For courses repeated at UofU and another college, it is always the UofU course that counts for credit. Courses must be passed with a minimum grade of C- to count towards the major. This worksheet is an unofficial evaluation.
